

A few reminders and updates:

Conditions Report from Boyne

Ginnie spoke with Mark Skop today and the course setting crew. Boyne will be pushing snow to get the starts ready for us. Boyne did experience 65 degree weather with about 1.5 inches of rain this week, the snow is very soft and wet, the course setting crew plans to salt the courses (urea) on Saturday, weather conditions look like Saturday night the temps will be dropping and remain cold for Sunday with snow in the forecast.

So it looks like we'll be good with a little help from the urea. Pull out those cat pee stinking gloves, course crew guys and gals!
